

CorporateGiftPro

Thank you for choosing the CorporateGiftPro  
Electric Wine Aerator and Decanter Gift Set!

## COMPARTMENTS

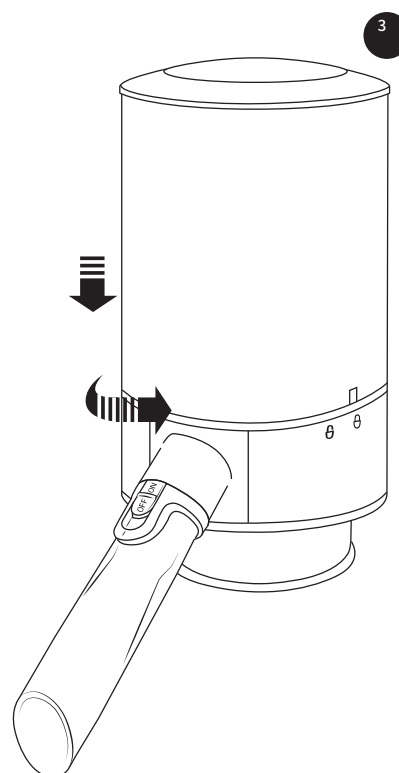

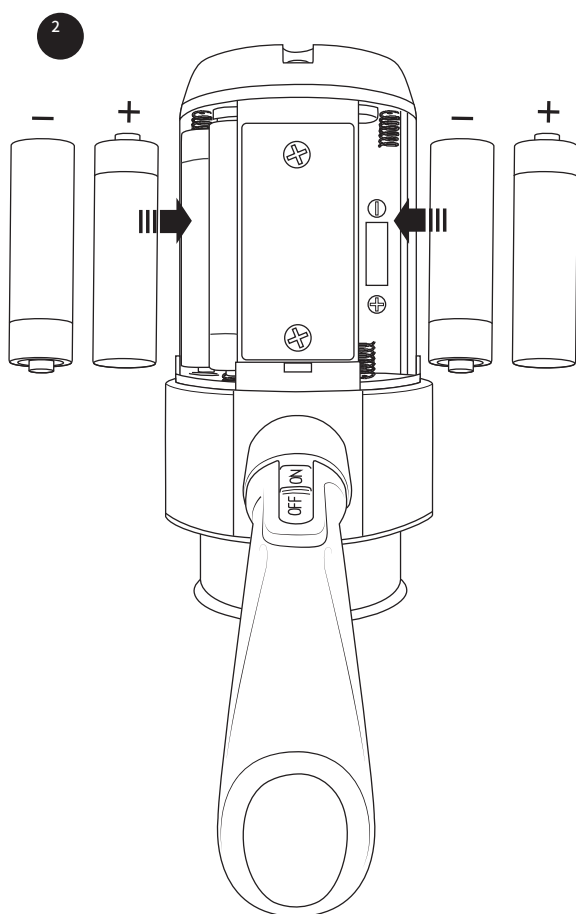

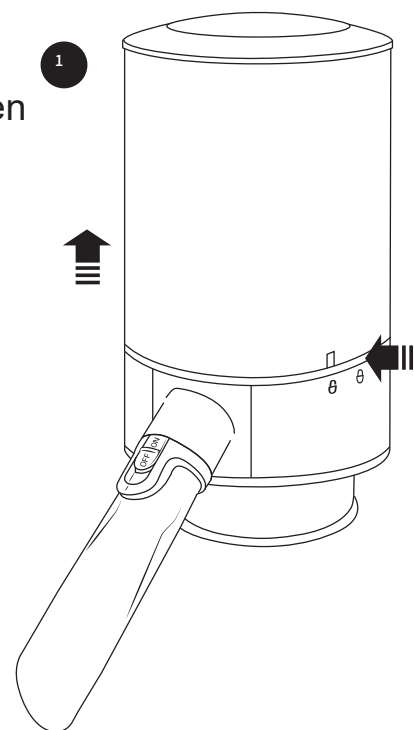

Model No. MGS-KD-4

1. Dispense Button
2. Cover
3. Optional Aeration Switch
4. Aeration Inlet
5. Spout
6. Adjustable Tube
7. Display Stand

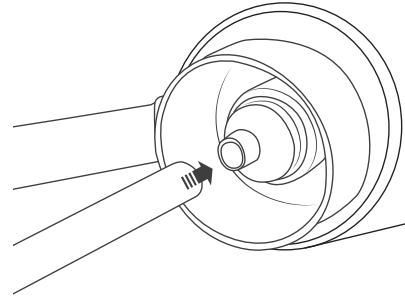

## INSTALL THE BATTERY

1. Rotate the cover clockwise to unlock position and then remove it.
2. Insert 4 AAA batteries (not included) into the compartment, ensuring the '+' and '-' symbols on the batteries align with those on the device.
3. Rotate the cover counterclockwise to secure it in place.

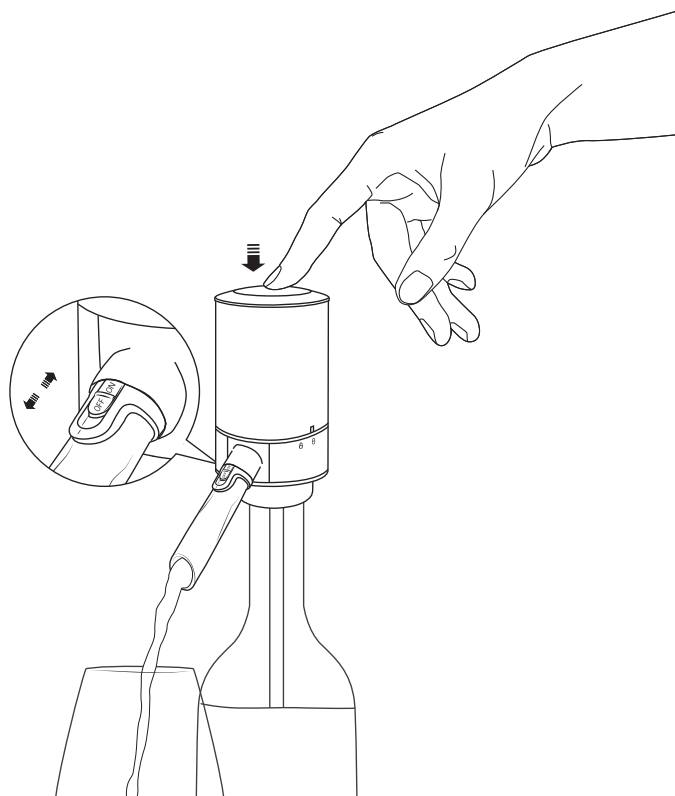

## INSTALL THE DEVICE AND DISPENSING

- Securely attach the tube to the base nozzle of the device.
- Adjust the tube to the desired length.
- Securely fasten the device onto the wine bottle.
- If you prefer wine aeration during dispensing, turn ON the optional aeration switch.

- Press and hold the button to dispense, release to stop.

## **TROUBLESHOOTING TIPS**

Case 1: If dispensing fails, confirm secure attachment to the bottle and a tight seal on the tube.

Case 2: This device suits wine bottles with an outer bottleneck diameter under 1.38 inches and an inner diameter between 0.7 and 0.75 inches.

Case 3: For less than 2 oz of remaining wine, remove the dispenser and pour directly from the bottle to prevent splashing caused by unstable pressure.

Case 4: If wine dispensing is below normal, it may be due to low battery. Please replace the batteries promptly.
